

WOOL THERMO ZIP POLO W'S

SKU: 10151215

Women's Wool Thermo Zip Polo Shirt

Brynjes Wool Thermo mesh collection is made from superfine, itch-free merino wool and offers effective next-to-skin insulation. These ultralight baselayers perform just as well during days out skiing or cold season hiking, as when sitting around on cold soccer stands or in chilly office buildings!

Wool Thermo mesh is ideal for medium to low activity, in cool or cold weather. The mesh construction ensures effective transport of excess moisture and heat away from the body and regulates temperature by allowing air circulation. At times of low activity and periods of rest, the mesh cells retain warm air, forming an uninterrupted layer of insulation next to the skin.

The design of the Wool Thermo mesh collection is inspired by the historic Viking armour known as "Brynje". Brynje mesh baselayers are worn and trusted by the Norwegian Armed Forces, polar explorers, outdoor enthusiasts and professionals with high-performance requirements.

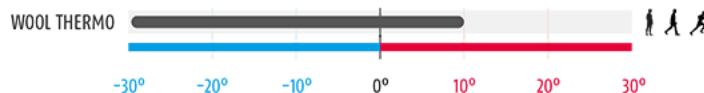

Wool Thermo mesh is ideal in combination with a [Classic wool](#) midlayer. For high exertion activities we recommend [Super Thermo mesh](#) next to the skin.

The Wool Thermo Zip Polo Shirt has a 3/4 neck with a 1/2 ventilation zip, solid-knit wool in front/ over shoulders, long raglan style sleeves for optimal arm mobility and non-chafing flatlock seams.

Hoved produkttype for Brynes produkter

Modell	Dame

Product Features

- Fit: feminine cut, slim fit, long cut, fabric stretches to shape
- 3/4 neck with a 1/2 ventilation zip
- Solid-knit wool in front / over shoulders
- Long raglan style sleeves for optimal arm mobility
- Brynje of Norway mesh technology: Effective temperature regulation and moisture transport year round. Excellent insulation-weight-ratio. Wool mesh absorbs less moisture than fine-knit wool.
- Non-clingy due to few contact points with the skin
- Soft and comfortable
- Insulates even when wet
- Breathable
- High wicking
- Ultralight

- High-performance
- Non-chafing flatlock seams
- Itch-free
- Versatile, 4 seasons
- Odour resistant: Merino wool is naturally antimicrobial, antifungal, odour and stain-resistant, requiring less frequent washing than other types of fibres.
- Made in Europe
- [Durable & repairable](#)
- [Machine washable on a wool cycle](#)

Technical Specifications

- **Material composition:** 80% Merino wool, 20 % polyamide
- **Merino fiber diameter:** 17,5 micron (superfine)
- **Material weight:** 125 g/m²
- **Product weight:** 140 grams
- **Zipper:** YKK
