

# FIBER PROTECTOR SPRAY

SKU: FP290816

## FiberProTector spray for impregnation of shell clothing and wool outerwear

It is a good idea to impregnate your clothing and gear if you want to increase their functionality and lifespan. A wide range of materials can be impregnated with the FiberProTector spray, such as shell clothing, footwear, tents, and leather surfaces. The spray is made in Norway and does not contain PFOS and PFOA chemicals or any other harmful substances. Winner of a product comparison test in the US, this is our recommended spray for reproofing Brynje shell clothing.

### Product Features

- Creates a water-repellent coating while retaining the garment's breathability
- Protects against liquid spills, stains, everyday wear and UV rays
- Anti-fading and colour-retaining properties
- Antibacterial
- Invisible
- Highly suitable for re-proofing of Brynje's shell products
- 500 ml spray can covers approximately 3,5 m<sup>2</sup> of material (equivalent to 1-2 of our Antarctic jackets)
- Test winner in the US (In comparison with two of the best-selling US impregnation spray brands)
